

# Not loving your data?

You're not alone.

**90%** of digital information is unstructured and locked in siloed repositories<sup>1</sup>

**61%** of users must access **4 or more** systems for insight

**15%** must access **11 or more** systems<sup>2</sup>

Poor data quality from lack of access or non-integrated, non-scalable systems...

...prevents **40%** of business initiatives from achieving targets

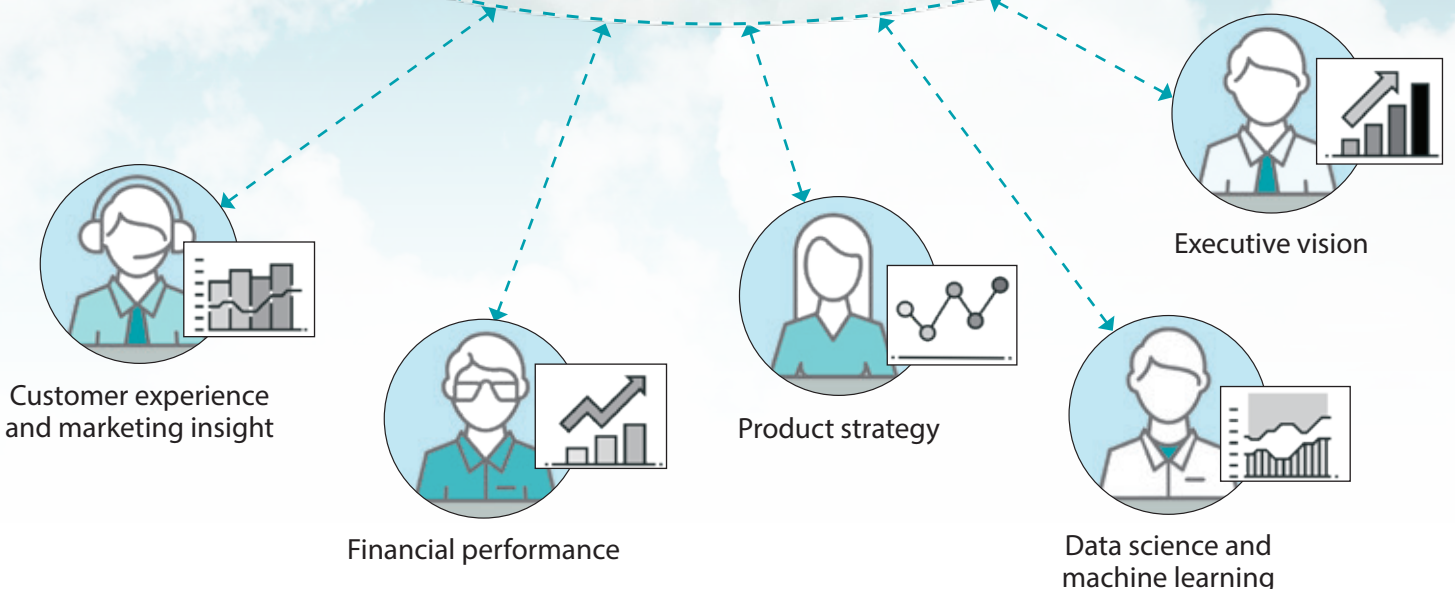

...hurts productivity by up to **20%**<sup>3</sup>

...costs businesses **\$15 million** on average every year<sup>4</sup>

## Pythian lets you love your data again.

With **Enterprise Data Platform**, our centralized, integrated and scalable cloud data platform, **ANY** user can gain insight from **ANY** data using **ANY** BI tool.

Read more about Enterprise Data Platform [here](#).
